

What to Expect As We Return to School on a Hybrid Model

How Will my Student Access Assignments at Home?

All K-12 teachers will utilize Schoology as a primary landing page for accessing announcements, resources, and information. From Schoology, students may be asked to navigate to various links and activities to support learning; however, students should always begin with checking Schoology. **Students will be expected to engage with instructional content each day.**

- Teachers will post on Schoology an outline of weekly activities by 9 a.m. each Monday.
- Weekly schedules will be posted starting the 2nd week of school. The first week of the hybrid learning experience will be focused on helping learners and families gain familiarity with the schedule and technology, accessing teacher assistance, and managing their remote learning environment.
- Learning expectations for students will begin on their first in-person day.

What Will Learning Look Like in the Hybrid Model?

Students will engage in a combination of Synchronous and Asynchronous learning. This chart provides some examples of what that may look like for students and teachers.

	Synchronous Learning	Asynchronous Learning
Definition	Synchronous learning is learning where students from a class are learning at the same time. This could be in-person classes or live online meetings using Zoom.	Asynchronous learning includes remote learning where students can access pre-recorded lessons or independent learning tasks while at home at different times throughout the day.
What could this look like?	<p>Engaging students in discussions and building community</p> <p>Previewing, modeling, or explaining assignments</p> <p>Answering student questions about one of the recorded lessons</p> <p>Conducting small group instruction.</p> <p>*If you are unable to attend a meeting, please notify your teacher and ask for next steps.</p>	<p>Viewing recorded instructional videos of lessons</p> <p>Engaging in online discussion by reading and posting responses</p> <p>Reading posted literary selections and responding.</p> <p>Completing independent learning tasks and assignments.</p>

What to Expect While Learning While at School

Teachers will maximize face-to-face instruction on the 2 days a week that students are attending in person classes at school.

- Teachers will clarify questions, provide feedback, and prioritize guided practice, discussion, & collaboration.

What to Expect As We Return to School on a Hybrid Model

What to Expect While Learning While at Home

While learning at home, students will primarily engage in asynchronous learning. This means teachers will provide materials or videos, and assignments will be accessed at any time on that day. It is extremely important for students to complete all activities during a remote learning day.

- Learners may still ask questions of teachers, though they may not receive an immediate response.

Wednesdays will be a remote learning day for all students. On this day, teachers will have increased availability to provide 1:1 or small group assistance during Zoom sessions. These scheduled sessions will be communicated in advance to help teachers, families and students manage their remote learning environments. Additionally, on Wednesdays, teachers will have open office hours where students do not need to schedule in advance.

Example Hybrid Schedule

Monday	Tuesday	Wednesday	Thursday	Friday
Student Group A is learning in school	Student Group B is learning at school	Student Groups A & B are learning at home with access to teachers via Zoom, email, & phone.	Student Group A is learning in school	Student Group B is learning at school
Student Group B is learning at home using Schoology (Asynchronous)	Student Group A is learning at home using Schoology (Asynchronous)	Mornings are reserved for pre scheduled Zoom sessions (1:1 with students, small group sessions, etc.). Afternoons are reserved for Open Office Hours where students may join a live zoom, ask questions, and receive assistance without pre scheduling	Student Group B is learning at home using Schoology (Asynchronous)	Student Group A is learning at home using Schoology (Asynchronous)

How Is Attendance Determined?

Elementary School	<ul style="list-style-type: none"> • Students should log in to Schoology and participate at some time between 9:00 a.m. and 9:00 p.m. daily. • Parents/guardians must let the school know by phone or email if students are ill or unable to work that day.
Middle School & High School	<ul style="list-style-type: none"> • Students should log in to Schoology and participate in learning by 11:00 a.m. daily. • Any login after 11:00 a.m. but before the close of the school day will be considered a tardy. • Parents/guardians must let the school know by phone or email if students are ill or unable to work that day.
